Kids' experiences in school are some of the most formative and memorable experiences they'll ever have. Don't keep those memories hidden away in a box or scattered in various places in your home, bound to be forgotten and never looked at. If you want to help your child preserve their school memories and mementos, there is probably no better way than with the My School Career scrapbook keepsake album.

The simple design lets you hold onto those memories by recording precious milestones and accomplishments from Kindy all the way to Year 13. By keeping track of subjects and friends, families create an ongoing memory book to cherish for years to come. This makes a great gift for children starting Kindy or School.

Album details - inside you will find:

- Special front page for First and Last Day At School photo
- 16 oversized expandable plastic covered pockets which add extra protection for those photos against fading and sticky fingers
- Plenty of room in the pockets to fill with photos, awards, certificates, report cards and special mementos
- Slide out prompt pages to record milestones and accomplishments
- Hard cover with matt finish and square spine
- Designed around New Zealand schools
